PROFILE

Software Engineer with 5+ years of experience across frontend and backend development, specializing in React, TypeScript and C#/.NET. Experienced in owning production web products, modernizing legacy applications, REST API development, code reviews and mentoring. Currently completing a Master in International Business Engineering and interested in product-focused engineering and architecture. Seeking a permanent position (CDI) in France from February-March 2027, ideally remote or with limited on-site presence.

PROFESSIONAL EXPERIENCE (5+ YEARS)

Senior Software Engineer / Full-Stack Developer | LLP ABR Tech

Feb 2024 - Aug 2025 full-time | on-site; Sep 2025 - present part-time | Almaty, Kazakhstan | hybrid/remote

- Owned frontend development across about 10 company web projects, including client-facing applications, internal products, web views and landing pages; built with React, TypeScript, Vite, Redux, Nx and SSR.
- Reviewed code, mentored developers and contributed to technical decisions.
- Developed backend features in C#/.NET 9, including restaurant menu functionality, admin features and REST APIs; worked with PostgreSQL and MongoDB.
- Built shared UI components and responsive interfaces from Figma using Astro, Radix UI and Tailwind CSS;

Mobile & Web Developer | NXT LVL PZA

Jul 2022 - Feb 2023 | London, UK | remote

- Helped deliver a startup web and mobile ordering product to production within a few months, working with rapid iterations and frequent releases.
- Built the core mobile ordering flow with React Native, TypeScript and Redux Toolkit, including card payments and Apple Pay; also developed the web ordering application with React/Next.js and unit tests.
- Implemented responsive Figma designs, analytics, performance optimizations and production features using Gatsby, Styled Components, Firebase and WebSockets.

Software Developer | LLP Bass Technology

Jul 2020 - Jul 2022 | Almaty, Kazakhstan | on-site

- Rewrote approximately 80% of a legacy JavaScript application in React and TypeScript, modernizing the codebase and improving maintainability.
- Developed and supported an electronic queue monitoring system for queues, employees and departments using React, TypeScript and Redux Toolkit.
- Migrated desktop functionality to the web, adapted interfaces to client requirements and built responsive layouts from Figma.

TECHNICAL SKILLS

Frontend & Mobile: React, TypeScript, JavaScript (ES6+), React Native, Next.js, Vite, Webpack, Redux / Redux Toolkit, TanStack Router/Query, SSR, Nx monorepos, Astro, Gatsby

UI & Product Interfaces: Tailwind CSS, Radix UI, Material UI, Styled Components, SCSS/SASS, Bootstrap, Motion, Recharts, responsive & cross-browser design

Libraries & Integrations: React Hook Form, Zod, i18next, dnd-kit, Mobiscroll, date-fns, Axios, XLSX, Google Maps API, reCAPTCHA, Video.js

Backend & Data: C#, .NET 9, REST API design & integration, PostgreSQL, MongoDB

Testing & Code Quality: Jest, React Testing Library, unit/integration testing, ESLint, Prettier, GitHub/GitLab code review

Delivery & Workflow: Git, GitHub, GitLab, GitHub Actions, CI/CD, Docker, Agile/Scrum, Kanban

SELECTED PROJECT

Co-founder - iCanWrite.app | Jan 2024 - Feb 2025

- Built an AI-assisted product for LinkedIn content creation and content planning, combining product development with generative AI integration.

EDUCATION

KU Leuven - Faculty of Economics and Business | Brussels, Belgium

Exchange Studies | Sep 2026 - Jan 2027 | ICT Strategy, Enterprise Architecture, Corporate Finance, Financial Markets

Master in International Business Engineering | IAE Montpellier, France

Sep 2025 - Aug 2027 | Rang 4/41

BSc Computer Science | University of Central Asia, Kyrgyzstan

Sep 2018 - Jul 2022 | Magna cum laude
